

REMARKS

In this Supplemental Amendment, claims 1-3 have been amended to correct minor errors. Care has been exercised to avoid the introduction of new matter. Entry of this Amendment is respectfully solicited.

Claim 1 recites that a radio base station transmits a diversity reception stop instruction to one mobile station to instruct the one mobile station to end the diversity reception, when the radio base station starts communicating with another mobile station using the space division multiplex method in addition to the one mobile station. The remarks of the Amendment of June 17, 2008 are reiterated in all the respects. Allowance of the application is again respectfully solicited.
